

PHATNOISE

Chevrolet is including a new PhatNoise entertainment system as standard equipment on the 2006 Uplander AWD crossover vehicle (\$29,455). The entertainment system uses a wallet-sized 40-gigabyte portable hard drive cartridge installed in the Uplander's integrated overhead rail system. The system is capable of storing and playing back up to 40 movies or 10,000 songs or combinations thereof. It can also be used to play video games with a wireless game controller or for listening to recorded books, magazines or newspaper articles. Passengers can select up to three sources of entertainment simultaneously. For example a young child could be watching a cartoon, while a teenager listens to a custom-playlist and the parents are listening to XM Satellite Radio. The hard drive cartridge is easily removed and connected to a home PC or laptop to download customized content for playback in the vehicle. PhatNoise will be available soon on the Buick Terraza, Saturn Relay and Pontiac Montana SV6. ■

Delivering the driver's edge to teen drivers.

Traditional driver's education has focused on the skills needed to pass a driving test, with classroom lectures and some behind-the-wheel "on-the-job training." The DrivingMBA™ program goes beyond this, bringing high-tech simulators to everyday drivers.

The DrivingMBA™ Comprehensive Driving Tutoring Program

These components are available as a discounted package or individually:

- **Rules of the Road® DVD** : Award-winning interactive DVD tutorial for home use.
- **Pre-Permit Driving Simulation Course** : 5 hours total computer simulated driving experience gives teens a solid foundation in fundamentals before they get behind the wheel.
- **Safe Young Drivers** : A book to supplement your own in-vehicle training.
- **Advanced Decision Skill Building** : The same high-end simulator used by police and other professionals to improve behind-the-wheel decision-making skills.
- **Profiler™** : Assesses your skills against a pro database (included with Advanced Decision Skill Building).
- **DUI** : Students in both simulator courses experience the negative impact upon vehicle control of driving while impaired.

A PROGRAM OF ACCELERATED SKILL BUILDERS
